

Tompkins County Industrial Development Agency

Workforce Housing Policy

Adopted: July 8, 2020; Modified: December 9, 2020; May 11, 2022; May 10, 2023

The Tompkins County IDA supports the development of workforce housing. In addition to meeting any other requirements as set forth in the TCIDA Uniform Tax Exemption Policy, all multi-family rental housing project applicants will be subject to the Workforce Housing Policy as follows:

The TCIDA will not deliver incentives to housing projects that include short term rentals defined as “Residential or non-commercial structures used for transient lodging with occupancy under 30 consecutive days.”

Eligible applicants will be required to make a payment to the Tompkins County Community Housing Development Fund.

The payment amount will be \$5,500 multiplied by the total unit count. This payment amount is based on a calculation of \$27,500 per 20% of the total units in lieu of providing 20% of the units on-site as affordable units. The payment is due at closing. At the applicant’s request the payment can be made in equal installments during the first three years of operation, however a deferral fee of 20% of the payment amount will be due at closing. The timing of the payment must be disclosed on the application. Any deviation in payment timing is subject to prior approval by the TCIDA.

The payment is not required if the project applicant will set aside a minimum of 20% of the units available for households earning 80% or less of area median income and is subject to a regulatory agreement by a local, state or federal agency for compliance for a period of at least 20 years.

In the event that a proposed project consists of more than one parcel of real property owned by different corporate entities, the Tompkins County IDA will consider and determine whether to treat the development as a single project for purposes of calculating the 20% affordable total unit requirement.

The following criteria are required:

- (1) The improvements to be made to the real properties will be constructed simultaneously or in sequence. Specifically, the affordable project will open for operation either before the market rate component or within three years after the opening of the market rate component; and
- (2) The land for the affordable housing portion of the project is being conveyed by the principal investor to a not-for profit affordable housing organization who will perform the development; and

Tompkins County Industrial Development Agency

The following criteria will be considered in making a determination:

- (1) The real properties involved are contiguous;
- (2) The real properties are, or were, considered for municipal site plan approval or SEQR determination as a single project;
- (3) The improvements to be made to the real properties are the product of a coordinated design with common design elements;
- (4) The purpose of maintaining separate corporate ownership of the real property is related to regulatory eligibility or financing requirements for affordable housing.

Prior to submitting an application, it is recommended that a developer request a decision from the Tompkins County IDA on this determination to allow appropriate project planning.

In general, the TCIDA delivers incentives to multi-family residential housing projects in the following areas:

- City of Ithaca's Downtown Density District
- The redevelopment of a Brownfield site that is registered as a DEC inactive hazardous waste site
- Lansing Town Center Incentive Zone

The Community Housing Development Fund is a joint effort of Tompkins County, the City of Ithaca, and Cornell University and helps communities and organizations throughout Tompkins County respond to the diverse affordable housing needs of its residents. The benefits of supporting the Community Housing Development Fund include:

- Flexible funding for any type of affordable housing (rental and for sale units) at a mix of income levels
- The fund supports workforce housing countywide
- The fund has a proven track record
- Applicants generally leverage State and Federal funds to produce far more units per local subsidy provided than the TCIDA ever could.

This policy will be reviewed at least annually.
